Introduction to Submitting a PureLease Proposal

Welcome to PureLease's Global Lease Marketplace, the place to submit proposals for current and possible new customers alike. This guide will walk you through the simple process of submitting a proposal through PureLease's web-based platform.

The screenshot shows a login form for LeaseAccelerator. The form has a light blue header with the LeaseAccelerator logo. Below the header, there are three input fields: 'Company' (with 'Marketplace' entered), 'Username', and 'Password'. Below the fields is a blue 'Login' button. At the bottom, there are two links: 'Forgot credentials' and 'Forgot password'.

Logging In

1. Open any HTML 5-compliant browser client with JavaScript enabled, including Chrome, Firefox, Edge, and Internet Explorer 11 or higher. PureLease recommends using Chrome.
2. Enter address: http://www.leaseaccelerator.com/lease_accelerator.
3. Enter your login credentials. The Company name is *Marketplace*.
4. Enter your Username and Password.

If you forgot or don't know your username, click the **Forgot credentials** link and an email will be sent to the email address on file with your username.

If you do not know your Password, click the **Forgot Password** link and an email will be sent to reset your password.

Home Workspace

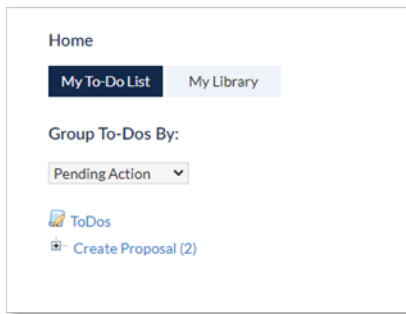

The Home workspace will display a list of To-Dos. These are actions that a user may take and include:

- Create a Proposal
- Answer a Question

- Approve Award (When awarded an RFP)

Actions that are pending in your account are called To-Dos and may be grouped by:

- **Pending Action:** Groups deals by the action required to be taken, for a Lessor’s purpose you would see Create Proposal.
- **Deal Value:** Groups actions based first on the currency of the deal then the monetary value.
- **RFP:** Groups actions by the Request for Proposals (RFP) submitted.
- **Days Outstanding:** Groups actions first by the number of days since the action was requested then by RFP name.
- Groups actions by Lessee then RFP name.

In order to see the detail of an RFP that requires action, the first step to be taken is to click the RFP Name and Cost link, which is the second expanded link, to go to Deal History.

Deal History

The Deal History section of an RFP has three tiles: Next Steps, Documents, and Q&A. Each tile offers further functionality as detailed below.

Next Steps

This tile shows the next pending action that is due within the RFP, as well as the ability to download the RFP document for viewing.

Deal History					
Next Steps					
Lessee	RFP #	Value	Affected Document	Status	Pending Actions
LA Sourcing	TEST-Preview-22R1-LASourcing	\$565,634.00	RFP TEST-Preview-22R1-LASourcing	RFP Released	Proposal

Documents

The Documents tile is where you can view any documents attached to the RFP, including the supplier quote and any additional documents provided by the customer. The documents tile is also where documents that you would like to accompany your proposal can be attached. Documents should be attached AFTER you have entered, saved, and submitted your proposal. Instructions for attaching documents will be provided later in the process. Once you create and then save your proposal, the Documents tile will also contain a PDF of your proposal detail entered. Clicking the kebab next to the document name in the Documents tile will provide you with a menu of actions you can take on a proposal or RFP.

Submitting a PureLease Proposal

Clicking the Proposal button takes you into the Proposal workspace where there are six tiles of information:

- **RFP:** Lists the RFP name and Summary of Funding Preferences
- **General Info:** This tile contains the Proposal name, Date and Proposal Valid Date, all of which are auto-populated, but can be changed. This tile is where information on the credit turn around time, contract preference, tax benefit and depreciation method can be entered. There are also free form boxes for adding additional information, such as marketing statements.
- **Funding:** This tile is for viewing and specifying a change in fund amount, fund dates, or asset costs. This tile allows you to build a funding schedule where you can specify more than one fund date to take place for an RFP. The only time this tile would need to be changed is if you do not wish to support the entire transaction.
- **Terms:** Payment basis, lease type, payment frequency, and number of payments as well as end-of-term options. By clicking on the edit icon next to the term lines, you are able to go in and enter the LRF you will provide for that particular term.
- **Settlement:** This tile contains Closing Requirements, which are boxes that are checked. This tile also gives you the option to enter any additional closing requirements that your company might have.
- **Submit:** This tile contains the information about PureLease's 1% transaction fee, by clicking the Save & Review button you are agreeing to this transaction fee.
